

## QUALITY AND ENVIRONMENTAL POLICY

Unimer Plast och Gummi AB shall be the ultimate partner for plastic and rubber products.

- We will meet and, where possible, exceed our customers' requirements, needs and expectations by working to our core principles of expertise, professionalism and commitment.
- We will be customer-focused and supply our customers with products and services with the right quality at the right price at the right time. To achieve this, we have defined our internal processes and quality-assured them by measurement and follow-up.
- Employees must have great opportunities to influence working methods and performance. Together we will contribute to continuously improvement of the workplace and the processes in which we are involved.
- We work with sustainability in the areas; Environment, Occupational Health and Safety, and Human Rights. Unimer complies with environmental legislation and other regulations that apply within our area of operation. We require that our contracted carriers in Sweden work actively with reduction of emissions and reduced fossil fuel consumption.
- By continually analyzing, evaluating, and improving our processes, we can enhance the quality of our operations and minimise the company's environmental impact.
- Our quality and environment targets reflect our ambitions in this policy.
